OCS Document Filing Issues

The first solution

Get the President (or the BOEM Director) to Draw the State Jurisdictional Lines pursuant to OCSLA,

and

Get the individual bordering states to extend the boundaries of their parishes and counties to the Federal line. (Louisiana has already done this.),

and

Create a database that links every OCS block to an “official” parish or county so that finding the appropriate filing place is as easy as looking at a map of the GOM or entering a block number into a computer.

OCS Document Filing Issues

The second solution (Preferred)

Change the Public Records Doctrine of each Gulf State to make filings of OCS documents at the MMS binding on third party purchasers of that state

and

Make the MMS Non-Required Filings Required (but not reviewable)

and

Get the President (or the MMS Director) to Draw the State Jurisdictional Lines pursuant to OCSLA (to solve state jurisdictional issues for other disputes)

OCS Document Filing Issues

The result

The Result – Title Examiners and Lawyers and Landman have a clear solution to an age old problem about where to look for and file documents affecting the real title to OCS leases.

and

Industry will save gobs of \$.
